

VRC Modular Ltd

SUPERPITCH LOW COST BATHROOMS , KITCHEN COMBOS, DISABLED FACILITIES

In the new world post Covid-19, we realise that many holiday-makers will book sites with more personal facilities, so that they and their loved ones feel safe.

VRC Modular have created a range of LOW-COST shower and toilet units based on their range of larger Campensuite steel and insulated panel modules with an option of the addition of British Oak cladding. The price has been kept as low as possible to assist sites attract clients for the season.

A lot of Certificated Location sites want to ... or need to have toilets and showers on site otherwise customers will not book with them. As the cost of larger units can be prohibitive, we are now offering these smaller units to Certificated Location sites to solve the problem. With more locations becoming Certificated Location sites, staying ahead of the rest is even more important.

The modules are 2.6m x 2.4m in size with 50mm of insulation in the galvanised steel panels. They are ultra-easy to clean due to the powered coated galvanised steel panel. The manual air extraction grill can be adjusted for air movement. The showers are heated by an 8.8kw inline water heater, externally mounted within its own protective box. There is an external bulkhead light above each door. The shower curtain is washing machine proof. The layout below shows the shower toilet of the DOUBLE BATHROOM. The KITCHEN COMBO version has an Elfin combined kitchen unit fitted, comprising of sink, fridge, hob and microwave oven with grill.

These modules come in three versions:

Version One is a DOUBLE BATHROOM is a DOUBLE COMBINED SHOWER and TOILET unit.

Version Two is a KITCHEN COMBO of a SINGLE BATHROOM with a SEPARATE KITCHEN.

Version Three is a FULL DISABLED BATHROOM as a disabled facility with either toilet – or shower and toilet.

They can be allocated to an individual customer, so they have exclusive use of them for the duration of their stay.

These versions create the SUPERPITCH on your site.

Prices- based on ex Cambridge and ex VAT.

Module	Each
DOUBLE BATHROOM	£6,599
KITCHEN COMBO	£7,387
DISABLED	£6,499

Optional extras include; British Oak cladding, infrared heating, electric hand dryers, electric extraction fans and hand sanitizer dispensers. We also can provide waste-water tanks.
